SOLTERIOR FR

FR SOLUTION DYED POLYESTER

Ideal for commercial awnings and umbrellas.

Made in Japan, **Solterior FR** is 100% recyclable, RoHS compliant, fire retardant, waterproof, UV stabilised and printable using either a screen-printing process or UV inks.

Ideal for commercial awnings and market umbrellas, **Solterior FR** is available in 10 colours and supported by a 5-year UV warranty.

Look after future generations

Solterior FR is a solution dyed polyester made with yarn that is produced out of used PET plastic bottles, giving a second life to a product that is not biodegradable and would otherwise end up as landfill.

By using recycled bottles in the yarn, **Solterior FR** saves both energy resources and the environment while delivering the same high-quality features as other Ricky sun control products.

Choosing **Solterior FR** fabric is a small step towards helping maintain the environment.
